

How dare you attempt to take away something I pay to enjoy? Did it ever cross you're minds that, "WE", the people are willing to pay to have stations that are exactly what we are looking for without the 'big bucks advertisers'? I drive a truck in the DC area and rely on hearing up-to-date traffic reports that will cut time stuck in traffic. I also enjoy listening to music that isn't interrupted by continuous ads....AND play music I want to hear....OH....did I just step on the toes of the advertisers? GOOD! I pay to not hear commercials, and do not want to lose my traffic, weather, and music. Did I get my message across???
